CAYMAN ISLANDS

Law 21 of 1978

I assent

T. RUSSELL

Governor

14th September, 1978

A LAW to restrict the importation and exportation of certain animals, plants and articles and for connected purposes.

ENACTED by the Legislature of the Cayman Islands.

- | | |
|--|---|
| Short title. | 1. This Law may be cited as the Endangered Species Protection and Propagation Law, 1978. |
| Interpretation. | 2. In the Law unless the context otherwise requires — |
| The Schedule. | <p>“live or dead animal” and “plant” includes the parts and products thereof itemised in the Schedule; and</p> <p>“Governor” means the Governor in Council.</p> |
| Import and export of certain animals and plants prohibited.
The Schedule. | <p>3. (1) The importation and exportation of live or dead animals and plants referred to in the Schedule is, subject to Section 4 and 8 prohibited.</p> <p>(2) Where a live or dead animal or plant of any of the families for the time being specified in Parts I & II of the Schedule or an article for the time being specified in Part III of the Schedule is being imported or exported or has been imported to any place in the islands for the purpose of being exported, any Customs Officer may require any person possessing or having control of the animal, plant or article to furnish proof that its importation or exportation is or was not unlawful by virtue of this section: and if such proof is not furnished to the satisfaction of such Customs Officer such animal, plant or article is liable to forfeiture.</p> |
| Exceptions. | <p>4. (1) Section 3 has no application to live or dead animals or plants the subject of a licence issued by the Governor.</p> <p>(2) For the avoidance of possible doubts it is hereby declared that section 3 has no application to the bringing into the Islands of turtles taken within the fishery limits of the Islands if taking such turtles is customary and traditional and the turtles are intended only for consumption by persons within the Islands.</p> |
| Licence application. | 5. Application for a licence under section 4 may be made to the Governor who |

may grant such a licence only upon the recommendation of the Chief Agricultural and Veterinary Officer.

Conditions of licences. 6. Licences granted under section 4 are revocable by the Governor at any time and shall, in any event, expire after one year from the date of issue or after any shorter period therein specified and are subject to such general or special conditions as the Governor may impose including conditions as to the place and mode of import or export, the premises where the licensed animal or plant shall be kept when in the Islands and quarantine requirements.

Regulations. 7. The Governor may make Regulations prescribing —
(a) the forms to be used for the purposes of this Law;
(b) fees upon application and the grant of licences;
(c) for the making and certification of products produced under licence;
The Schedule. (d) amendments to the Schedule; and
(e) such other matters as may be desirable for the implementation of this Law.

Penal. 8. Whoever —
(a) contravenes section 3;
(b) makes any statement orally or in writing or propounds any document in the truth of which he does not believe for the purpose of obtaining a licence or other advantage under this Law, the onus of showing his belief being upon him;
(c) handles, deals in or has in his possession any animal or plant introduced into the Islands in contravention of section 3;
(d) contravenes any term or condition of a licence granted to him under this Law,

is guilty of an offence and liable on summary conviction to a fine not exceeding \$800 or to imprisonment for a term not exceeding two years or both.

Repeal of Law 3 of 1969. 9. The Turtle Protection Law, 1969, is hereby repealed.

Passed the Legislative Assembly this 12th day of September, 1978.

T. RUSSELL
President

SYBIL McLAUGHLIN
Clerk of the Legislative Assembly

12. The hair, whether or not carded or combed, of any animal of the species *Vicugna vicugna*.
13. Musk derived from any animal of the sub-species *Moschus moschiferus moschiferus*.
14. A raw hide or skin, whether fresh, salted, dried, pickled or limited and whether or not split, and the leather of any crocodile, lizard or snake.
15. The dried body of any animal of any of the families Alligatoridae and Crocodylidae.
16. The shell and scales, whether unworked or simply prepared but not if cut to shape, the waste of the shell and scales, and the claws, of any animal of the family Cheloniidae.
17. The preserved body of any animal of the sub-species *Atelopus varius zeteki*.
18. The whole shell of any animal of the species *Papustyla (=Papuina) pulcherima*, whether unworked or simply prepared but not if cut to shape.
19. The feathers, or the skin of any other part with the feathers on it, of any of the following animals, namely —
 - a) any animal of the family of Paradisaeidae; and
 - b) any animal of the species *Gallus sonneratii*.
20. Any fishing fly containing the plumage of any animal of the species *Gallus sonneratii*.
21. The stem of any plant of the family Cyatheaceae and any article made wholly or partly of any such stem or stems.
22. Any collection of botanical or zoological items, or of both which contains any item referred to in any of the preceding paragraphs of this Schedule.

PART 111

ARTICLES THE IMPORTATION AND EXPORTATION OF WHICH ARE RESTRICTED

1. Any dead whale.
2. Whale meat (excluding guts, bladders, stomachs, blood and fat) and edible whale offals, whether fresh, chilled, frozen, salted, in brine, dried or smoked, but not if unfit for human consumption.
3. Whalebone, whether unworked or simply prepared but not if cut to shape, and hair and waste of whalebone.
4. Whale fat and whale oil (other than sperm oil) whether or not refined.
5. Whalmeat extracts and whalmeat juices.
6. Any bracelet made wholly or partly of the hair of any animal of the family Elephantidae.
7. Ivory derived from the tusks of any animal of the family Elephantidae whether unworked or simply prepared but not if cut to shape, and powder and waste thereof.
8. The horn of any animal of the family Rhinocerotidae, whether unworked or simply prepared but not if cut to shape, and powder and waste thereof.
9. The teeth of any animal, whether unworked or simply prepared but not if cut to shape, and powder and waste thereof.
10. The stuffed head, and the skull together with the skin covering it, of any animal of any of the families Elephantidae and Rhinocerotidae.
11. Raw furskins and hides or skins, tanned or dressed with the hair on, of any of the following animals and any rug, coverlet, coat, jacket, cape or stole derived from any such furskin, hide or skin, namely —
 - a) any animal of any of the following genera, namely —

Genetta,
Paradoxurus, and
Viverra;
 - b) any animal of any of the following species, namely —

<p>Acinonyx jubatus, Arctogalidia trivigata, Chrotogala owstoni, Crocuta crocuta, Felis benegalensis, Felis colocolo, Felis geoffroyi, Felis guigna, Felis jacobita, Felis marmorata, Felis nigripes, Felis paradalis, Felis planiceps, Felis rubiginosa,</p>	<p>Felis serval, Felis sylvestris, Felis tigrina, Felis viverrina, Felis wiedii, Fossa fossa, Hemigatus derbianus, Hyaena brunnea, Mungos mungo, Panthera nebullosa, Panthera onca, Panthera pardus, Panthera tigris, Panthera uncia,</p>	<p>Poiana richardsoni, Ursus (Thalarectos) maritimus, Vicugna vicugna, and Vivericula indica.</p>

CONVENTION ON INTERNATIONAL TRADE
IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

THE SCHEDULE

PART 1.

Interpretation:

1. Species included in this Part are referred to:
 - (a) by the name of the species; or
 - (b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. An asterisk (*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, sub-species or species of that taxon are included in Part 11 and that these populations, sub-species or species are excluded from Part 1.
5. The symbol (-) followed by a number placed against the name of a species or higher taxon indicates the exclusion from that species or taxon of designated geographically separate populations, sub-species or species as follows —
 - 101 Lemur catta
 - 102 Australian population.
6. The symbol (+) followed by a number placed against the name of a species denotes that only a designated geographically separate population or sub-species of that species is included in this Part as follows:—
 - + 201 Italian population only.
7. The symbol (†) placed against the name of a species or higher taxon indicates that the species concerned are protected in accordance with the International Whaling Commission's schedule of 1972.

PART 11

Interpretation:

1. Species included in this Part are referred to:
 - (a) by the name of the species; or
 - (b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all the species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. An asterisk (*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, sub-species or species of that taxon are included in Part 1 and that these populations, sub-species or species are excluded from Part 11.
5. The symbol (#) followed by a number placed against the name of a species or higher taxon designates parts or derivatives which are specified in relation thereto for the purposes of the present Convention as follows:
 - #1 designates root
 - #2 designates timber
 - #3 designates trunks
6. The symbol (-) followed by a number placed against the name of a species or higher taxon indicates the exclusion from that species or taxon of designated geographically separate populations, sub-species, species or groups of species as follows:
 - 101 Species which are not succulents
7. The symbol (+) followed by a number placed against the name of a species or higher taxon denotes that only designated geographically separate populations, sub-species or species of that species or taxon are included in this Part as follows:
 - + 201 All North American sub-species
 - + 202 New Zealand species
 - + 203 All species of the family in the Americas
 - + 204 Australian population
