4. (1) The assessment required under section 8 of the Law shall be conducted by a person with such professional qualifications as shall satisfy the Director of Health Services that the person is competent to assess the financial standing of patients.

(2) The assessment shall be of the total disposable income and of the total value of the capital assets of the patient and the patient's spouse, and of the total value of any capital assets disposed of by the patient or the patient's spouse in the period of twelve months immediately preceding the treatment in respect of which fees are payable by the patient.
