

Supplement No. 3 published with Gazette No. 17 of 17th August, 1998.

DEVELOPMENT AND PLANNING LAW

(1998 Revision)

THE DEVELOPMENT AND PLANNING REGULATIONS

(1998 Revision)

Revised under the authority of the Law Revision Law (19 of 1975).

The Development and Planning Regulations, 1977 made the 28th July, 1977

Consolidated with the -

Development and Planning (Amendment) Regulations, 1977 made the 6th December, 1977

Development and Planning (Amendment) Regulations, 1979 made the 18th September, 1979

Development and Planning (Amendment) Regulations, 1980 made the 25th March, 1980

Water Authority Law, 1982 (18 of 1982) (part) enacted the 9th December, 1982

Development and Planning (Amendment) Regulations, 1985 made the 26th March, 1985

Development and Planning (Amendment) (No. 2) Regulations, 1990 (sic) made the 24th July, 1990

Development and Planning (Amendment) Regulations, 1991 made the 5th March, 1991

Development and Planning (Amendment) (Fees) Regulations, 1991 made the 16th December, 1991

Development and Planning (Amendment) Regulations, 1992 made the 21st January, 1992

Development and Planning (Amendment) (No. 2) Regulations, 1992 made the 6th October, 1992

Development and Planning (Amendment) Regulations, 1993 made the 21st December, 1993

Development and Planning (Amendment) Regulations, 1994 made the 15th March, 1994

Building Code Regulations, 1995 (part) made the 11th August, 1995

Development and Planning (Amendment) Regulations, 1997 made the 20th May, 1997

Development and Planning (Amendment) (No. 2) Regulations, 1997 made the 19th August, 1997

Development and Planning (Amendment) (No. 3) Regulations, 1997 made the 11th November, 1997.

Consolidated and revised this 7th day of July, 1998.

Note (not forming part of the Regulations): This revision replaces the 1995 Revision which should now be discarded.

First Schedule: Application fees for planning permission

Second Schedule: Areas

DEVELOPMENT AND PLANNING REGULATIONS

(1998 Revision)

1. These regulations may be cited as the Development and Planning Regulations (1998 Revision). Citation

2. In these regulations- Definitions

“agricultural/residential” means land, the primary use of which is both agricultural and residential;

“Agricultural/Residential zone” means a zone designated as such on the map;

“ancillary building” means a garage or other buildings or structure on a lot or parcel subordinate to and not forming an integral part of the main or principal building but pertaining to the use of the main building;

“apartment” with reference to a building or block, denotes a building which is used or intended to be used as a home or residence for more than two families living in separate quarters;

“architect” means a person approved by the Authority as such for the purpose of submitting to the Authority plans and applications under these regulations and may include an engineer, surveyor, draughtsman or other person having professional qualifications, training or experience in building, construction or civil engineering;

“areas” mean the areas shown on the map and “zones” have a similar meaning;

“Authority” includes “Board” in the alternative;

“Beach Resort/Residential zone” means a zone designated as such on the map;

“business” with reference to any building, denotes commercial use and includes a shop, restaurant, bank, office or other place in which people are commonly employed in any trade or profession;

“Commercial zone” includes a General Commercial zone, a Neighbourhood Commercial zone and a Marine Commercial zone;

“communal open space” means an open outdoor area within the curtilage of a residential development for the enjoyment of residents and their guests on a shared basis.

“cottage colony” means any premises or complex of premises which are operated on a commercial basis for providing living accommodation for six or more paying guests, the character of which is that of a group of cottages;

“detached house” means a dwelling unit on its own exclusive lot;

“duplex” means two dwelling units one above the other or side by side having a common wall and being on one lot;

“dwelling unit” means two or more rooms used or intended for the domestic use of one or more individuals living as a single housekeeping unit, with exclusive cooking, eating, living, sleeping and sanitary facilities;

“final certificate” means a certificate issued under regulation 33 authorising the occupation and use of a building on the completion of a building operation;

“General Commercial zone” means a zone designated as such on the map;

“gross acreage” means an area inclusive of roads and other developments;

“guest house” means premises having the external appearance of a dwelling unit but operated on a commercial basis providing sleeping accommodation for six or more paying guests and where no facilities are provided for persons other than those guests and the owner and staff;

“Heavy Industrial zone” means a zone designated as such on the map;

“heavy industry” means any industry other than light or cottage industries;

“height of a building” means, in the case of a building with a gabled or hipped roof, the vertical distance measured from the average elevation of the finished building site to the eaves and, in the case of buildings with a flat roof, the vertical distance from the kerb line to the highest point of the roof excluding cornices, parapet walls and railings;

“Historic Overlay zone” means a zone designated as such on the map;

1995 Revision

“hotel” has the meaning ascribed to it in the Hotels Aid Law (1995 Revision);

“Hotel/Tourism zone” means a zone designated as such on the map;

“Industrial zone” includes a Heavy Industrial zone and a Light Industrial zone;

“industry” means the use of land for the carrying on of any industry or industrial process;

“Institutional zone” means a zone designated as such on the map;

“Law” means the Development and Planning Law (1998 Revision);

“Light Industrial zone” means a zone designated as such on the map;

“light industry” means an industry which is carried on in a special building and in which the process carried on or the machinery used is such as if carried on or used in a residential area would not cause detriment to the amenity of that area including detriment by reason of noise, vibration, smell, fumes, electrical interference, smoke, soot, ash, dust or grit;

“lot” has the meaning ascribed to the word “parcel” in the Registered Land Law (1995 Revision);

“low water mark” means, in relation to any place, the average height of all low waters of the sea at that place throughout any one calendar year;

“map” means the zoning map of Grand Cayman which is annexed to the development plan and “plan” has a similar meaning;

“Mangrove Buffer zone” means a zone designated as such on the map;

“Marine Commercial zone” means a zone designated as such on the map;

“massing”, in relation to a development, means the overall size, bulk and dimensions of the buildings concerned and their overall appearance resulting from their juxtaposition;

“Neighbourhood Commercial zone” means a zone designated as such on the map;

“parking area” means an open space reserved for parking vehicles related to any building;

“prescribed” means prescribed by the Law or these regulations;

“public access” means private land over which members of the public enjoy rights by virtue of any law;

“public building” means any building used for civic, administrative, religious or social purposes to which the public has access and includes a town hall, post office, church and public hall;

“Public Open Space zone” means a zone designated as such on the map;

	<p>“public utility building” means any building which is essential to the proper provision of public utility services including water, electricity and communications;</p> <p>“residential land” means any lot, plot, tract, area, piece or parcel of land including any building used exclusively or intended to be used for family dwelling or concomitant uses specified herein;</p> <p>“Residential zone” means a zone designated as such on the map;</p> <p>“resort residential” means any area of land used primarily for the accommodation of tourists and which may also be used for normal residential use;</p> <p>“Scenic Coastline zone” means those parts of the coastline of the Islands designated as such on the map;</p> <p>“section” means a section of the Law;</p> <p>“semi-detached house” means two dwelling units built side by side with a common wall with each dwelling unit on its own exclusive lot;</p>
1998 Revision	<p>“service road” has the meaning ascribed to it in the Roads Law (1998 Revision);</p> <p>“setback” means the horizontal distance between any boundary of a parcel and any building on the parcel;</p> <p>“site coverage” means the total area covered by a building divided by the area of the lot on which it stands expressed as a percentage;</p> <p>“storey” means that portion of a building included between the surface of any floor and the surface of the floor next above or if there be no floor above it, then the space between such floor and the ceiling next above it;</p> <p>“warehouse” means any building designed or adapted for the storage of goods other than goods held for sale by retail;</p> <p>“water lens” means an underground source of fresh water; and</p> <p>“workshop” means any building where work of a light industrial nature is carried out and includes motor repair shops, carpenters’ shops and any ancillary building used for the repair of goods or equipment.</p>
Mode of application	<p>3. Applications for planning permission to carry out development are to be made to the Authority in the manner prescribed and, subject to section 5, such</p>

applications shall be examined and dealt with by the Authority having regard to the development plan and these Regulations.

4. Development shall be in accordance with land uses indicated on the development plan, which is held in the offices of the Authority and identified by the signature of the Governor thereon together with a reference to these Regulations. Permitted development

5. (1) The control of development, including buildings and subdivision of land, shall be in accordance with these Regulations and the development plan. Control of development

(2) Notwithstanding the requirements of subregulation (1), the Authority may give permission for development deviating from these Regulations only as provided in the development plan.

(3) These regulations shall be read with and interpreted having regard to the development plan, provided that where there is a conflict between these regulations and the Planning Statement for the Cayman Islands 1977, these regulations shall prevail.

6. (1) Applications for planning permission to carry out development other than subdivisions under regulation 22 are to be made on the prescribed forms and accompanied by the following drawings- Applications for building

- (a) a location plan (on the same scale as the Registry Index Map where possible);
- (b) a site lot plan at a convenient natural scale to indicate items in subregulation (3);
- (c) floor plans to a scale of: 1/8 inch = 1 foot or 1/4 inch = 1 foot; and
- (d) front and rear elevations to a scale of: 1/8 inch = 1 foot or 1/4 inch = 1 foot

When major development is involved additional elevations must be submitted together with a statement of the material to be used in the external finish of walls and roofs and if the Authority so requires, their colour must be shown on the drawings.

- (2) (a) Subject to paragraph (g) of section 10(2) of the Law, no person shall construct or change a building without a building permit.
- (b) Prior to commencing the construction of, or the change to, a building, a person shall apply to the Director for a building permit which shall be accompanied by the fees set out in the Second Schedule.
- (c) Notwithstanding regulation 34(3), this subregulation applies to Little Cayman.

(3) Original drawings may be either in ink or pencil, and three prints made therefrom shall accompany each application. Major commercial and industrial building applications are to be signed by an architect but the Authority may consider plans prepared by a person other than an architect if all the required information appears thereon.

(4) The site plan must show-

- (a) the location of the proposed building;
- (b) the location of existing buildings on the site and on adjacent land;
- (c) the front, rear and side setbacks;
- (d) the dimensions of relevant lots (for subdivision);
- (e) the fronting roads giving their names and widths;
- (f) the water and sanitary drainage systems; and
- (g) the north point.

(5) The location plan must show the position of the lot in relation to the adjoining lots and, if possible be a copy of the relative Registry Index Map. In special circumstances the Authority may require a topographical survey.

(6) Water supply and sanitary drainage systems must be shown on floor plans.

(7) On every plan the identity of the person who prepared it must appear and each site lot plan must be certified as follows-

“I hereby certify that all the dimensions shown on this plan are correct.

Signature _____
Address _____”.

General requirements re
parking, height, setbacks,
waterfront property, etc.

7. (1) In development areas, parking space must be provided on individual lots or in nearby locations for public, commercial, industrial and domestic buildings as set out below.

The minimum parking space for a vehicle is 8 feet x 16 feet, exclusive of access thereto and spaces must be provided upon the following scale -

- (a) churches and other places of worship- one space per 12 seats;
- (b) cinema, theatres and places of public assembly-one space per 6 seats;
- (c) clubs, restaurants, recreation halls and bars-one space per 200 square feet;
- (d) commercial development-one space per 500 square feet;
- (e) industrial development-one space per 1,000 square feet;

- (f) hotels-one space per two guest bedroom units;
- (g) apartments and cottage colonies-one space per apartment; and
- (h) dwelling units- one space per unit.

In no case may the building plus the car parking area exceed seventy-five per cent of the lot except in commercial centres where the building plus car parking area may occupy up to ninety per cent of the lot, the remainder being suitably landscaped.

(2) The maximum permitted height of buildings, is sixty-five feet to the soffits of the eaves, or five storeys, whichever is the less, or in residential zones two storeys. Provided that in a Beach Resort/Residential zone the maximum permitted height of a building is thirty-three feet to the soffits of the eaves or three storeys, whichever is the less. No dwelling house may exceed two habitable storeys above the highest point of the surrounding ground. No apartment or guest house shall exceed three storeys.

(3) Subregulation (2) does not apply to any building registered as, or as part of, a strata title under the Strata Titles Registration Law (1996 Revision), or which has been leased or subleased for a period exceeding thirty-one years, which is an integral part of an hotel development of not less than one hundred bedrooms in an Hotel/Tourism zone, and which is to be used on a continuous and ongoing basis as part of the hotel development and the occupants of which have access to all the facilities of the hotel development. A building to which this subregulation applies shall have a maximum permitted height of sixty-five feet to the soffits of the eaves or five storeys whichever is the less.

1996 Revision

(4) Subregulation (2) does not apply to any chimney, church spire, dome, cupola, stage tower, water cooling tower, elevated water storage tank, elevator tower, radio or television antenna tower, smokestack, parapet wall or structure of a like nature, and any necessary mechanical appurtenances thereof.

Provided that-

- (a) in Grand Cayman the maximum permitted height of any such structure and appurtenance, if any, shall not exceed the height limitation prescribed by the Director of Civil Aviation within the flight approach zone pattern of the Owen Roberts International Airport; and
- (b) in the case of a radio or television antenna tower or structure of a like nature where the structural stability of the tower or structure is reliant upon guys, it shall not be erected on any lot nearer to any of the boundaries of that lot than a distance less than the height of such structure or appurtenance.

(5) Setbacks (building lines) are to be measured to septic tanks and to the walls, stairs or balconies of the buildings. Roof overhangs must not project closer to the boundary than three feet. 1998 Revision
Setbacks governed by the Roads Law (1998 Revision) must be in accordance with the requirements thereof and in all other cases the requirements of these regulations apply.

(6) Waterfront property-

- (a) in George Town - within the area enclosed from a point on the waterfront map reference MM593 331, thence in a northerly direction along such waterfront to map reference MM597 344 thence due east to the edge of the road reserve of North Church Street, thence southerly along the western road reserve boundaries of North Church Street, Harbour Drive and South Church Street to map reference MM 594 331, thence due west to the point of commencement, new buildings or additions to existing buildings may be permitted but any such buildings (including ancillary buildings, structures and walls) shall not at any point be closer than seventy-five feet to low water mark:

Provided that this restriction shall not apply to any works carried out by the Highway Authority established under the Roads Law (1998 Revision) where the works are for the protection of the existing road against undermining or scouring by the sea or to any works carried out by the Port Authority established under the Port Authority Law (1995 Revision) where the works are for the improvement of the George Town port facility;

- (b) in other areas (except hotel and tourist related zones) no land adjacent to the waterfront may be developed by buildings unless each lot is at least one hundred feet in mean distance measured from low water mark at right angles to the nearest edge of the road. No building other than ancillary buildings shall, at any point, be closer than fifty feet to low water mark in areas where the coastline is ironshore, or seventy-five feet in other areas.

(7) Applications for the approval of places of public assembly, gas stations, garages, clubs, bars, cinemas, obnoxious and other industrial plants such as workshops and similar establishments must be advertised by the applicant in a manner approved by the Authority twice in a newspaper published and circulating in the Islands, with a period of at least seven days but not more than ten days between the advertisements. Within three weeks of the final advertisement members of the public may lodge objections with the Authority, stating their grounds.

1995 Revision

(8) Notwithstanding subregulation (1), regulation 8 (6), (7) and (8), and regulation 9, the Authority may grant permission to carry out development that does not comply with all or any of those provisions if the Authority is satisfied-

- (a) that an exceptional circumstance exists; and
- (b) that there is a sufficient reason why the permission should be granted.

8. (1) In a residential zone the primary uses are residential and horticultural. Applicants for permission to effect any development in a Residential zone shall ensure that the massing, scale, proportion and design of such development is consistent with the historic architectural traditions of the Islands. Residential zone

(2) In determining whether applicants have satisfied the requirements of subregulation (1), the Authority shall have regard, among other things, to-

- (a) the compatibility of any building with the landform;
- (b) the use of embellishments and features which distinguish local architecture;
- (c) whether the balance and proportions of any buildings are those of traditional building forms;
- (d) the use of traditional stone walls, picket fences, hedging and roadside plantings;
- (e) the use of colourful tropical vegetation; and
- (f) presence of natural vegetation, beaches, coves or on shore or sea views.

(3) Commercial, agricultural, religious, social and educational development (including recreational facilities and public and civic buildings), may be permitted, provided that the applicant has advertised details of his application twice in a newspaper published and circulating in the Islands, with a period of not less than seven days or more than ten days between each publication of the notice, and there are no objections which the Central Planning Authority regards as raising grounds for refusing such permission.

(4) Any other variation from the primary use shall only be granted after the applicant has advertised details of his application four times in newspaper published and circulating in the Islands, with a period of not less than seven days or more than ten days between each successive publication of the notice, and it is established to the satisfaction of the Central Planning Authority that the majority of persons not under a legal disability who reside-

- (a) within a radius of 1,500 feet of the boundaries of the applicant's land:

- Provided that where the variation concerned relates to an expansion of an existing development on-
- (i) the parcel of land on which it is situated; or
 - (ii) on an adjoining parcel of similar size,
- the radius applicable shall be reduced to 750 feet; and
- (b) elsewhere in the Islands and own land within such radius specified in subregulation (a) hereof,

have given their approval to the variation.

(5) Notwithstanding the foregoing regulations, no use of land in a residential zone shall be dangerous, obnoxious, toxic or cause offensive odours or conditions or otherwise create a nuisance or annoyance to others.

(6) In high density areas, detached and semi-detached houses and, if in suitable locations, guest houses and apartments are permissible provided-

- (a) the maximum density is six detached or semi-detached houses or four two-bedroom or six one-bedroom duplexes per acre;
- (b) the maximum density for guest houses is thirty-five bedrooms per acre;
- (c) the maximum number of apartments is twenty-five per acre with a maximum of forty-two bedrooms per acre;
- (d) the minimum lot size for each detached and semi-detached house is 6,500 square feet and 5,000 square feet respectively;
- (e) the minimum lot size for duplexes is 6,500 square feet;
- (f) the minimum lot width is 60 feet for detached and semi-detached houses and duplexes and 100 feet for guest houses and apartments;
- (g) the maximum site coverage for each detached and semi-detached house, duplex, guest house and apartment is forty per cent of the lot size;
- (h) the minimum front and rear setbacks are 20 feet;
- (i) the minimum side set back is 10 feet for a building of one storey, and 15 feet or fifty per cent of the height of the building, whichever is greater, for a building of more than one storey; and
- (j) a detached or semi-detached house or duplex shall be not more than two storeys and a guest house or apartment not more than three storeys in height and shall, where it is three storeys in height, be so designed that no continuous vertical facade or elevation exceeds two storeys or 25 feet in height.

(7) In medium density areas, detached and semi-detached houses and, in suitable locations, guest houses and apartments are permissible provided-

- (a) the maximum density is four detached and semi-detached houses or three two bedroom duplexes per acre;
 - (b) the maximum density for guest houses is twenty bedrooms per acre;
 - (c) the maximum number of apartments is twenty per acre with a maximum of thirty bedrooms per acre;
 - (d) the minimum lot size for detached and semi-detached houses is 10,000 square feet and 8,000 square feet respectively;
 - (e) the minimum lot size for duplexes is 10,000 square feet;
 - (f) the minimum lot size for guest houses and apartments is 12,500 square feet and 20,000 square feet respectively;
 - (g) the minimum lot width for detached and semi-detached houses is 60 feet and for guest houses and apartments is 100 feet;
 - (h) the maximum site coverage for detached and semi-detached houses, duplexes, guest houses and apartments is twenty five per cent of the lot size;
 - (i) the minimum front and rear setbacks are 20 feet;
 - (j) the minimum side setback is 10 feet for a building of one storey and 15 feet or fifty per cent of the height of the building, whichever is the greater, for a building of more than one storey; and;
 - (k) no building shall be more than 3 storeys in height and shall, where it is 3 storeys in height, be so designed that no continuous vertical facade or elevation exceeds 2 storeys or 25 feet in height.
- (8) In low density areas, detached and semi-detached houses and, in suitable locations, guest houses and apartments are permissible provided-
- (a) the maximum density is three detached or semi-detached houses or two three-bedroom duplexes per acre;
 - (b) the maximum density for guest houses is sixteen bedrooms per acre;
 - (c) the maximum number of apartments is fifteen per acre with a maximum of twenty-four bedrooms;
 - (d) the minimum lot size for detached and semi-detached houses is 12,500 square feet and 11,600 square feet respectively;
 - (e) the minimum lot size for duplexes is 13,500 square feet
 - (f) the minimum lot size for guest houses and apartments is 25,000 square feet;
 - (g) the minimum lot width for detached and semi-detached houses and duplexes is 80 feet and for guest houses and apartments is 100 feet;

- (h) the maximum site coverage for detached and semi-detached houses, duplexes, guest houses and apartments is twenty-five per cent of the lot size;
- (i) the minimum front and rear setbacks are 20 feet;
- (j) the minimum side set back is 10 feet for a building of one storey and 15 feet or fifty per cent of the height of the building, whichever is the greater, for a building of more than one storey; and
- (k) no building shall be more than 3 storeys in height and shall, where it is 3 storeys in height, be so designed that no continuous vertical facade or elevation exceeds 2 storeys or 25 feet in height.

(9) Subject to subregulations (6), (7) and (8), the maximum height of guest houses and apartments in a Residential zone shall be at the discretion of the Authority in accordance with the scale and character of buildings in the area.

Hotel/tourism related
development

9. (1) Hotels, cottage colony developments and apartments are permitted in Hotel/Tourism development zones if they comply with the following requirements-

- (a) the maximum number of bedrooms for hotels is sixty-five per acre;
- (b) the maximum number of apartments is twenty per acre with a maximum of thirty-five bedrooms;
- (c) the minimum lot size for hotels and apartments is half an acre with a minimum lot width of 100 feet;
- (d) the minimum lot size for residential development within a hotel zone is 12,500 square feet and the minimum lot width 100 feet;
- (e) the maximum site coverage for hotels and apartments is forty per cent of the lot size;
- (f) the minimum setbacks are 100 feet from the low water mark for buildings up to two storeys, with an additional 30 feet setback for each additional storey;
- (g) the minimum side setbacks are fifty per cent the height of the building with a minimum of 15 feet;
- (h) the minimum rear setbacks are 25 feet from the road edge or lot boundary as the case may be; and
- (i) in the case of a cottage colony development-
 - (i)the maximum number of cottage units is ten per acre;
 - (ii)no cottage unit contains more than two bedrooms; and
 - (iii)the maximum site coverage is twenty-five per cent of the lot size.

(2) In certain cases unrelated development may be permitted by the Authority within a Hotel/Tourism zone but it will be required to conform to the

setback requirements applicable to hotels as well as to all other requirements applicable to its own particular type of development.

(3) Entertainment facilities which are related primarily to the needs of the tourism industry should normally be located within an Hotel/Tourism development zone.

(4) Applications in respect of entertainment facilities outside an Hotel/Tourism development zone will be considered on their merits, having regard to the character of the surrounding area and any relevant regulations.

10. (1) The Authority may, for such period as it may specify, permit building on any lot which does not conform to regulation 8(6), (7) or (8) or regulation 9(1), where-

Temporary relaxation of certain regulations in case of certain strata title development

- (a) such building forms part of a development of strata titles under the Strata Titles Registration Law (1996 Revision), on a larger parcel of land of which such lot forms a part and such development as a whole complies with the said provisions by the Authority;
- (b) that on the completion of all stages of the development such lot will be combined with such larger parcel; and
- (c) a restriction under Division 3 of the Registered Land Law (1995 Revision) has been registered against the remainder of such larger parcel which will ensure that in the event of the development of the larger parcel not being completed within such time as the Authority deems reasonable, the dimensions of the lot on which such building is temporarily permitted as aforesaid will be modified so as to bring the building on it into compliance with the aforementioned subregulations.

1996 Revision

1995 Revision

11. (1) Industrial development is permissible within Heavy and Light Industrial zones provided that-

Industrial development

- (a) it is not detrimental to the surrounding area;
- (b) it provides centres of local employment;
- (c) access to industrial areas is ensured; and
- (d) this regulation is complied with fully.

(2) The Authority may, in the case of each heavy and light industrial development, determine-

- (a) the minimum size of the lot;
- (b) the maximum height and bulk of structures;
- (c) ancillary uses permitted on the site;

- (d) ancillary uses prohibited;
- (e) the maximum permitted floor area;
- (f) the maximum site coverage;
- (g) the location of development including structures, loading and unloading areas and other facilities;
- (h) the number and location of parking spaces; and
- (i) the amount, type and location of screening and landscaping required.

(3) Any other form of development is permissible in an Industrial zone if it does not change the primary use of the zone for industrial purposes.

(4) Light industrial development may be permitted by the Authority in other areas provided it is not offensive and does not adversely affect the area, and in Residential zones is also subject to regulation 8(3), (4) and (5) as follows-

- (a) industry linked to or based upon agriculture may alternatively be located conveniently to the agricultural activity with which it is associated;
- (b) industry which is linked to or based upon fishing, boating, sailing and related activities may alternatively be located conveniently to the activity with which it is associated;
- (c) light industry linked to the needs of local communities may alternatively be located conveniently within a residential area; and
- (d) heavy industry shall only be carried on in areas zoned for heavy industry.

(5) The Authority will require an acceptable standard of layout, design and construction and a high degree of landscaping in order to achieve the screening from public roads, and adjoining property of industrial buildings and structures, storage areas, waste disposal areas and parking and loading areas. Additionally, the Authority may require reasonable provisions for integration of the development into its surroundings.

(6) In a Heavy Industrial zone, heavy industrial development may be permitted as a principal use, and, for the purposes of this regulation, heavy industrial uses shall include but not be limited to power generation, fuel refining and storage, solid waste disposal and recycling, quarrying and mining, and mechanised and other forms of manufacture.

Commercial zones

12. (1) Commercial zones fall into the three following categories-

- (a) General Commercial zones in which the primary use is commercial, including, but not limited to, use for-
 - (i) banks and other financial institutions;

- (ii)shops for the selling of groceries, books, souvenirs, and pharmaceutical goods and for the selling or repair of jewellery, furniture, hardware, wearing apparel, and radio, television and electrical goods;
- (iii)restaurants, bars and other catering facilities;
- (iv)chambers, rooms and offices where professional services are provided including legal, accountancy and real estate offices;
- (v)the premises of cobblers and seamstresses;
- (vi)supermarkets;
- (vii)petrol stations;
- (viii)motor vehicle, motor cycle and cycle sale rooms and rental offices;
- (ix)professional premises used by doctors, dentists and other health care providers and medical laboratories;
- (x)parking facilities provided on a commercial basis; and
- (xi)recreational facilities including theatres, night clubs, miniature golf links, bowling alleys, dance halls and amusement arcades;
- (b) Neighbourhood Commercial zones are zones in which the primary use is a less intense form of development of that permitted in a General Commercial zone and which cater principally for the needs of persons resident in, or in the vicinity of, the zone; and
- (c) Marine Commercial zones are zones in which the primary use is that permitted in a General Commercial zone but in which, in addition, commercial uses related to marine activities are permitted, including, but not limited to-
 - (i)docks;
 - (ii)marinas and boat moorings;
 - (iii)handling and storing cargo;
 - (iv)the maintenance, repair and fuelling of maritime vessels;
 - (v)boat chartering and water sport operations; and
 - (iv)fishing and fish processing.

(2) Banks and financial institutions engaged primarily in international trade may be permitted only in a Commercial zone. Banks may be permitted in a Neighbourhood Commercial zone if their principal purpose is to serve the needs of persons residing in, or in the vicinity of that zone.

(3) Offices may be permitted in zones other than Commercial zones if they are-

- (a) ancillary to, or required for the efficient functioning of a development; and
- (b) located in, or adjacent to, such development.

(4) Supermarkets and shops intended to serve persons both from within and outside their immediate neighbourhood may be permitted only in a Commercial zone unless the Authority is satisfied that there are circumstances which otherwise require.

(5) Shops and other enterprises necessary for meeting the daily needs of a community may be permitted in, or close to, that community.

(6) Uses other than commercial uses may be permitted in a Commercial zone if that can be done without changing the primary commercial use of that zone.

- (7) (a) The maximum height of any building in a General Commercial zone shall be sixty-five feet or five storeys, whichever is the greater;
- (b) the maximum height of any building in a Neighbourhood Commercial zone shall be forty feet or three storeys, whichever is the greater; and
- (c) the maximum height of any building in a Marine Commercial zone shall be forty feet or three storeys, whichever is the greater.

(8) In a General Commercial zone, residential use may only be permitted in a five storey building and only on one upper storey.

(9) In a Neighbourhood Commercial zone, residential use may be permitted only in a multi-storied building and only on one upper storey.

(10) In a Marine Commercial zone, residential use may be permitted only in a three-storied building and only on one upper storey.

(11) The maximum density, minimum lot size and setbacks in a Commercial zone are at the discretion of the Authority.

(12) Site coverage, parking areas, driveways and service areas in any Neighbourhood Commercial or Marine Commercial zone shall not exceed seventy-five per cent of the lot concerned but in a General Commercial zone site coverage, parking areas, driveways and service areas may cover up to ninety per cent of the lot.

(13) Parking facilities, in a commercial zone shall be on the basis of one car parking space for every three hundred square feet of commercial development:

Provided that where any commercial development is within Block OPY, George Town as demarcated on the Land Registry maps, it shall be on the basis of one such space for every five hundred feet.

13. (1) In Institutional zones the primary use is for public, religious, educational and recreational purposes and includes, but is not limited to, use for schools, churches, cemeteries, playing fields and sports facilities, prisons, hospitals, nursing homes, police and fire stations, courts, town halls, community centres and retirement homes. Institutional zones

(2) Subject to any other provision of the Law and these regulations religious institutions, social and educational development including recreational facilities and public and civic buildings are permissible in any zone where they meet the needs of the community.

(3) The maximum density and minimum lot size are at the discretion of the Authority except in Residential zones where the requirements relating to setbacks and site coverage for High Density Areas shall apply.

(4) Front setbacks from the road reserves are twenty-five feet.

(5) Subject to subregulation (3), other setbacks will be at the discretion of the Authority after it has taken in account the need to minimise any detriment to the amenities of adjoining owners.

(6) Parking facilities in an Institutional zone shall be as follows-

Form of development	Number of car parking spaces
Churches and other places of worship	One space for every eight seats
Other buildings	At the discretion of the Authority.

14. (1) The Beach Resort/Residential zone is a transition zone between the Hotel/Tourism zone and the low density Residential zone. Development within this zone will generally be permitted if it has the appearance of residential development in scale and massing. Beach Resort/Residential zones

(2) The following development is permitted in the Beach Resort/Residential zone-

- (a) detached and semi-detached houses;
- (b) duplexes;
- (c) beach resorts; and

- (d) in locations considered by the Authority to be suitable, guest houses, apartments, cottage colonies and tourism related development.
- (3) (a) The maximum density for houses or duplexes is four detached or semi-detached houses, or four three-bedroom duplexes per acre;
- (b) the maximum density for guest houses is thirty bedrooms per acre;
- (c) the maximum density for apartments is twenty per acre with a maximum of thirty bedrooms;
- (d) the maximum density for beach resorts is thirty bedrooms per acre; and
- (e) the maximum number of cottages is eight per acre.
- (4) All development shall meet the following minimum requirements prior to approval by the Authority-
 - (a) lot sizes-
 - (i) the minimum lot size for detached and semi-detached houses is 10,000 square feet and 8,000 square feet respectively;
 - (ii) the minimum lot size for duplexes is 10,000 square feet; and
 - (iii) the minimum lot size for apartments, cottage colonies, beach resorts, guest houses or tourist-related development is one half of an acre;
 - (b) setbacks-
 - (i) setbacks shall be at least seventy-five feet from the low water mark to any building or structure other than ancillary structures, except that the Authority may determine a setback to be no less than fifty feet from high water mark having regard to-
 - (A) the elevation of the property and its environs;
 - (B) the geology of the property;
 - (C) the storm/beach ridge;
 - (D) the existence of a protective reef adjacent to the proposed development;
 - (E) the location of adjacent development; and
 - (F) any other material consideration which the Authority considers will affect the proposal;
 - (ii) side setbacks shall be fifty per cent of the height of the buildings as measured at the eaves adjacent to the setback, with a minimum of fifteen feet;
 - (iii) rear setbacks shall be twenty feet minimum from the road edge or lot boundary, as the case may be, except for buildings over one storey for which the rear setbacks shall be twenty-five feet minimum; and

- (iv) setbacks to ancillary structures may be determined by the Authority at its discretion.

(5) Where an application for planning permission is made for development in a Beach Resort/Residential zone the Authority shall ensure that the development will provide-

- (a) a high standard of accommodation, amenity and open space; and
- (b) outdoor facilities, including swimming pools, gardens and sun decks/patios/terraces with a substantial amount of landscaping, and incorporate sufficient screening to provide privacy from adjacent properties.

(6) Where planning permission is granted for a development in a Beach Resort/Residential zone which has a frontage of two hundred feet or more, the Authority shall ensure that a public right of way to the sea is set aside and dedicated; such a right of way shall be a minimum of six feet wide for every two hundred feet of frontage or part thereof, and may be within an area set aside for setbacks.

15. (1) In an Historic Overlay zone, the Authority shall have a duty to promote and encourage the preservation of historic buildings and conserve their historic architectural heritage. Historic Overlay zones

(2) In considering any application for permission to develop within an Historic Overlay zone, the Authority shall, in its discretion, ensure that the development-

- (a) conforms to the traditional workmanship, design, scale, massing, form, materials, decoration, colour and methods of construction of the buildings and the location of windows and doors in them; and
- (b) in its setting, reflects the historic pattern of development in the Islands.

16. (1) Public Open Space zones comprise predominantly undeveloped areas of land vested, or intended to be vested, in the Government or over which the public have rights and which is available to members of the public generally (whether subject to fulfilling any lawful condition or not) for purposes of sport, recreation, or the enjoyment or study of nature. Such areas include, but are not limited to, parks, reserves, beaches, playgrounds, sports grounds and playing fields, plazas, public access ways and land set aside for public purposes development and subdivisions under regulations 27 and 31. Public Open Space zones

(2) It is the duty of the Authority to preserve Public Open Space zones.

(3) The Authority shall permit development within a Public Open Space zone only if the development-

- (a) is compatible with the character and function of the zone; and
- (b) buildings forming part of such development are directly associated with, and promote, the principal purposes and actual use of the zone.

(4) In considering any application for development in a Public Open Space zone, the Authority shall ensure that the intended development-

- (a) will preserve, to the greatest possible extent, the natural features and character of the land;
- (b) is not detrimental to the natural character or appearance of the land;
- (c) accords preference to use of natural building materials;
- (d) includes adequate landscaping and planting to improve the appearance of the zone; and
- (e) displays a high standard of design and use of materials consistent with the character and heritage of the Islands.

(5) In carrying out its duties under this regulation, the Authority shall enable and facilitate the discharge of the lawful functions of any other statutory authority in relation to any Public Open Space zone.

Mangrove Buffer zones

17. (1) In considering any matter relating to a Mangrove Buffer zone the Authority shall have regard to the ecological functions performed by the mangroves including-

- (a) service as a nursery and natural habitat for marine life, birds, insects, reptiles and crustaceans;
- (b) filtration of overland run-off to the sea and ground water aquifer recharge;
- (c) export of organic particulate and soluble organic matter to coastal areas; and
- (d) coastal protection, and the protection of the Island against storms and hurricanes.

(2) All forms of development shall be prohibited in a Mangrove Buffer zone except in exceptional circumstances, and only where equivalent storm protection is provided by some other means and it can be demonstrated to the Authority that the ecological role of the peripheral mangroves will not be substantially adversely affected by the proposed development.

(3) The width of any Mangrove Buffer zone in any area shall be shown on the zoning maps.

(4) An application for access through a Mangrove Buffer zone may be approved at the discretion of the Authority, but only if the Authority is satisfied that-

- (a) it is absolutely necessary to gain safe boating access to and from a development area;
- (b) there is no other safe and suitable alternative boating access located within a neighbouring development area;
- (c) the width of the access is kept to a practical minimum and does not exceed seventy-five feet;
- (d) any dredging complies with the conditions of approval from the responsible authority; and
- (e) all requisite approvals, licences and permissions for any work relating to the sea bed have already been granted by the Governor in Council and other responsible authorities.

(5) All development permitted within an area abutting a Mangrove Buffer zone shall be setback a minimum distance of fifteen feet from the inland boundary of a Mangrove Buffer zone, unless, in the opinion of the Authority, it is not feasible to achieve this standard, in which case the minimum setback shall be at the discretion of the Authority.

(6) Red mangroves in a Mangrove Buffer zone will be protected from damage or destruction by any development except when the Authority decides, in its discretion, that exceptional circumstances exist which justify it.

18. (1) In relation to any land above the water lenses marked on the map-

Land above water lenses

- (a) residential and agricultural development will in general be permitted over a water lens; and
- (b) industrial development will be permitted over a water lens only if:
 - (i) the development is a small industrial land use;
 - (ii) it requires a supply of water readily available; and
 - (iii) it can be demonstrated that this facility cannot be provided elsewhere on the Islands.

(2) Strict conditions shall be imposed to ensure that the water in the lens shall not be contaminated by the development or by the effluent therefrom and that the quantity of water used will not deplete the lens to the disadvantage of existing users.

19. It is the duty of the Authority to ensure that the open character of scenic shoreline land is preserved, in particular that of the beaches, and also to safeguard the public's right to use the beaches and to gain access to them through public rights of way.

Scenic shoreline

Agricultural/residential
land

20. (1) One house per acre may be built on agricultural/residential land:

Provided that if the Authority is satisfied that any such land is situated in an area designated by the Governor by Order to be land not situated over a water lens and not particularly suited to agriculture it may permit not more than three houses to be built on an acre of such land.

(2) Buildings in agricultural/residential areas shall comply with the requirements for low density residential areas only in respect of parking, lot width, site coverage and setbacks.

- (3) In an Agricultural/Residential zone-

- (a) agricultural and single family residential uses shall be permitted;
- (b) industrial, commercial or multi-family residential uses shall be permitted only if they are ancillary to use for agricultural purposes; and
- (c) open land may be included for the maintenance or enhancement of water or soil quality.

Authority may permit
building on lot below
minimum size

21. Where circumstances so justify, the Authority may permit building of dwelling units on a lot the size of which is below the prescribed minimum and must so permit if the lot existed as a separate lot on the 28th day of August, 1977.

Application for
subdivisions

22. (1) Applications for subdivisions shall be made on the form provided stating the registration section, block and parcel number of the land and must be signed by the proprietor or his agent.

(2) In subdivisions of six lots or less, three prints of the proposals shall be submitted and such prints may be copies of the registry index map.

(3) In subdivisions of over six lots, six prints shall be submitted, the original being signed by the proprietor or his agent and the person who prepared it.

(4) Proposed subdivisions are to be drawn to one of the following scales- 1:625; 1:1,250; 1:2,500.

- (5) The plans shall show -

- (a) the location of site (shown as an inset with the site bordered red together with the block and parcel numbers of adjoining lots);
- (b) the road layout including road widths and access;
- (c) the approximate lot sizes;

- (d) land use within the subdivision, including land for public purposes; and
 - (e) existing topographical detail (the Authority may require a separate topographical map).
- (6) Applications shall be accompanied by a statement as to -
- (a) water supply and sewage disposal;
 - (b) road specifications;
 - (c) power and light to be available; and
 - (d) drainage.

23. Applications to develop places of public assembly, gas stations, garages, clubs, bars, cinemas, workshops, manufactories, industrial plants and similar establishments shall be advertised by the applicant in a form, approved by the Authority, by which members of the public may, by a description of the land the subject of the application and contained in the advertisement, be able without difficulty to identify the land, twice in a newspaper published and circulating in the Islands with a period of at least seven days but not more than ten days between the advertisements. Within three weeks of the final advertisement members of the public may lodge objections with the Authority stating their grounds.

Certain applications to be advertised

24. Planning applications involving the provision of new public roads or the extension of existing private roads on frontage development or an existing road shall comply with the following conditions-

Road requirements

- (a) truncations shall be provided at all road intersections and junctions, the minimum truncation length measured from the lot corner along the respective boundaries being ten feet;
- (b) cul-de-sacs (roads without through access) may not normally extend further than eight hundred feet, but if "finger" development associated with it on both sides makes it impractical to comply with that restriction, an adequate turning circle for road vehicles shall be provided at the end;
- (c) proposed roads shall intersect one another at an angle of not less than 70 degrees;
- (d) service roads for rear access to commercial and industrial development shall be provided;
- (e) the points of access onto a throughway from a subdivision shall be kept to the minimum practicable and not less than 1/4 mile apart, unless the Authority otherwise permits;
- (f) minimum road reserves shall be thirty feet with a maximum reserve of fifty feet or as laid down by the Roads Law (1998 Revision);

1998 Revision

- (g) the Authority may require provision for the continuation of principal roads to adjoining subdivisions or their proper projections when adjoining property is not subdivided and also continuation of such minor roads as may be necessary for extensions of utilities and access to adjoining properties; and
- (h) roads shall be constructed to the standard specified by the Authority.

Water requirements

25. (1) Buildings for human habitation shall be provided with potable drinking water as well as water for domestic purposes and if such potable water is from a well it shall, if so required by the Chief Medical Officer, be rendered free from bacteria.

(2) The developer shall indicate the manner in which a water supply of not less than fifty gallons per person per day will be provided.

(3) The developer of any subdivision shall provide space and design for a complete water reticulation system, whether or not an approved supply is immediately available for connection.

(4) No approval shall be given to any water supply unless the Authority has firstly ascertained the location of all septic tanks in lots adjoining the lot on which the water supply is to be situated, and determined that the water supply is, having regard to the location of such tanks, satisfactorily sited.

Sewerage requirements

26. (1) The developer of a subdivision shall submit a proposal for a satisfactory sewerage system:

Provided that in small subdivisions, individual septic tanks are acceptable.

(2) Buildings intended for human habitation shall be provided with water borne sanitation draining to a septic tank of accepted design approved by the Chief Medical Officer except in areas designated by the Chief Medical Officer as having comprehensive sewerage systems. The effluent from a septic tank shall drain through a cased drainage and be discharged at such distance from any water supply as the Authority shall determine to be satisfactory after inspection of the lot on which such discharge is to take place and the lots adjoining such lot, and septic tanks shall be so located that the house drainage may eventually be connected to a main sewer and shall comply with setbacks.

Land for public purposes

27. According to the size of a subdivision the Authority may require the applicant to set aside land for public purposes including children's playgrounds, sport fields, parks, churches and public rights of way and to reserve without

charge adequate lots, not exceeding five per cent of the land being developed for public use.

28. Reclaimed land for development and public areas must comply with the minimum soil levels and other requirements prescribed from time to time by the Mosquito (Research and Control) Law (1998 Revision).

29. In subdivisions provision shall be made for- Provision for schools

- (a) one primary school for every 400 families. (The site reserved for a primary school being approximately three acres); and
- (b) one secondary school for every 2,000 families. (The site reserved for a secondary school being approximately seven acres).

30. (1) Suitable landscaping shall be carried out and shade trees planted where practicable. Landscaping

(2) In reclaimed swamp areas interlocked sections of existing trees shall, where practicable, be left to provide windbreaks until replaced by suitable reafforestation.

31. In Hotel/Tourism zones, the Authority, when granting planning permission in relation to land which has a shoreline of two hundred feet or more in a development other than private single dwelling units, shall require the owner to set aside and dedicate to the public a right of way of not less than six feet in width from the public road to the sea. Such right of way may be within the area set aside for setbacks under these regulations. Public rights of way in Hotel/Tourism zones

32. Canals shall not be straight and, at the point of entrance from the sea, so designed as to provide adequate protection from storm surges and, wherever possible, to meander through the area with an inlet to provide circulation of water. Canals

33. Certificates of fitness for occupancy shall be obtained from the Authority before any new buildings are occupied. The Authority may grant special permission for occupation of part of a building prior to completion but, in the case of an owner/occupier who possesses Caymanian Status no special permission for the occupation of part of an uncompleted building is required if such part complies with the approved plans. Final certificate

34. (1) The control of development in Cayman Brac shall be in accordance with Appendix 1 of the Planning Statement for the Cayman Islands 1977. Cayman Brac and Little Cayman

(2) The control of development in Little Cayman shall be in accordance with Appendix 2 of the Planning Statement for the Cayman Islands 1977.

(3) Regulations 1 to 33 shall not apply in relation to land in Cayman Brac and Little Cayman. The Board may, by notice published in the Gazette, declare that any or all of regulations 1 to 33 shall apply in relation to land in Cayman Brac and Little Cayman.

No expectation of
subsequent planning
permission

35. (1) Where any outline planning or permission to develop land has been given under the Law, or where any outline planning or planning permission to develop land has subsequently been permitted to be amended or modified, such original permission or permission to amend or modify shall not give rise to any right to, or any expectation of a right to, any further planning permission or permission of any other kind whether from the Authority, the Board, the Government, any Government Department or any Statutory Authority, either in respect of the land the subject of the original permission or any other land elsewhere in the Islands irrespective of whether such other land abuts or is adjacent to the land in respect of which the original or previous permission was given.

(2) The Authority or the Board, as the case may be, may, in any case, refuse an application for such further planning permission without any right arising to the applicant concerned to appeal against such refusal either to the Appeals Tribunal or the Grand Court on the grounds that the previous outline planning or permission to develop, or subsequent permission or permission to amend or modify, give rise to any right, or expectation of any right, to further planning permission either in respect of the land the subject of the original permission or any other land whatsoever.

(3) In this regulation-

“land” includes the sea bed and any area within the territorial waters of the Islands.

Fees

36. An application fee is payable to the Authority and must accompany the application for planning permission in accordance with the Schedule. Fees are not refundable, irrespective of the Authority’s decision, but additional fees will not be charged for re-submission of amended plans required by the Authority.

Penalties

37. Whoever contravenes any of these regulations is guilty of an offence and liable on summary conviction to a fine of five thousand dollars.

FIRST SCHEDULE

APPLICATION FEES FOR PLANNING PERMISSION

PART I-Application for Planning Permission and Development

Item	Type of development	Fee
1.	Permission to subdivide	A fee calculated at the rate of \$60 in respect of each lot in the proposed subdivision
2.	Construction of or extension to a single family residence, duplex or apartment	A fee calculated at the rate of 15 cents in respect of each square foot of the proposed development
3.	Carrying out of commercial or industrial development (not being hotel, petrol station or agricultural development)	A fee calculated at the rate of 20 cents in respect of each square foot of the proposed development
4.	Carrying out of hotel development	A fee calculated at the rate of 15 cents in respect of each square foot of the proposed development
5.	Carrying out of petrol station development	A fee calculated at the rate of \$1 in respect of each square foot of the proposed development
6.	Carrying out of agricultural development	A fee calculated at the rate of 2 cents in respect of each square foot of the proposed development
7.	Construction of a social club or place of assembly	A fee calculated at the rate of 10 cents in respect of each square foot of the proposed development
8.	Construction of a church	Free
9.	Construction of a swimming pool	\$75

10.	Erection of a sign	\$50
11.	Construction of a fence:	
	residential	\$100
	other	\$250
12.	Modification of the shoreline or the construction of dock	\$250
13.	The carrying out of dredging	\$750
14.	Rezoning of land (if not included as part of a development plan review)	\$1,000
15.	Carrying out of an excavation	(a) A fee calculated at the rate of 15 cents in respect of each cubic yard to be excavated; or (b) \$750 plus a fee calculated at the rate of 10 cents in respect of each cubic yard to be excavated, whichever amount is the lesser
16.	Permission for a change of use of land	The fee that would have been payable under this Schedule if the applications were an application for development for the proposed new use

Part II-Application for Outline Planning Permission

The application fee for outline planning permission for development is fifty per cent of the fee that would be payable under Part I in respect of an application for planning permission for the development.

Part III -Application for Planning Permission for Development Made After the Development Has Been Started or Has Been Completed

The application fee for planning permission for development made after the development has been started or has been completed is double the fee that would be payable under Part I in respect of an application for planning permission for the development.

SECOND SCHEDULE

1. For the purposes of the Law-

“Area A” means the following registration sections, blocks and parcels-

Registration Section	Block
(a) West Bay	Block 5C, (parcels with water frontage only, but including any parcel subsequently derived from another parcel with water frontage existing at the 8th December, 1997), SD, I0A, 10E, 11B, 11C, 11D, 12C, 12D, 12E, 17A.
(b) George Town	13B, 13C, 13E, 13EH (parcels with road frontage on West Bay Road, Eastern Avenue and North Church Street), 13D (parcels with road frontage on Eastern Avenue), 14BG, 14BH, 14BJ, 14C, OPY, 18A.
(c) North Side and East End	33C, 33CJ, 33D, 33E, 33M, 39E, 57A, 61A, 65A, 69A, 73A.

“Area B” means all other registration sections, blocks and parcels in Grand Cayman and Little Cayman not included in Area A.

2. The following building permit fees are payable in Area A:

	Fee
For a house less than 1,200 square feet	Nil
For an apartment less than 600 square feet	Nil
For an apartment 600 square feet but not exceeding 800 square feet	50 cents per square foot
For a house 1,200 square feet but not exceeding 1,500 square feet	10 cents per square foot
For a house over 1,500 square feet but not exceeding 2,000 square feet	15 cents per square foot
For a house over 2,000 square feet but not exceeding 2,500 square feet	20 cents per square foot
For a house over 2,500 square feet but not exceeding	50 cents per square foot

4,000 square feet	
For a house over 4,000 square feet	\$1.50 per square foot
For an addition to a house over 2,500 square feet	\$1 per square foot
For a duplex	\$1 per square foot
For a condominium	\$1.50 per square foot
For an apartment over 800 square feet	\$1.50 per square foot
For a restaurant or bar	\$2 per square foot
For an office, shop or other commercial building	\$1.50 per square foot
For an hotel	\$2 per square foot
For a gas station	\$4 per square foot
For a residential swimming pool	\$400 flat fee
For a commercial swimming pool	\$1,200 flat fee
For an illuminated sign	\$20 per square foot
For an industrial building	\$1 per square foot.

3. The following building permit fees are payable in Area B:

	Fee
For a house less than 1,200 square feet	Nil
For an apartment less than 600 square feet	Nil
For an apartment 600 square feet but not exceeding 800 square feet	25 cents per square foot
For a house 1,200 square feet but not exceeding 1,500 square feet	5 cents per square foot
For a house over 1,500 square feet but not exceeding 2,000 square feet	8 cents per square foot
For a house over 2,000 square feet but not exceeding 2,500 square feet	10 cents per square foot
For a house over 2,500 square feet but not exceeding 4,000 square feet	25 cents per square foot
For a house over 4,000 square feet	75 cents per square foot
For an addition to a house over 2,500 square feet	50 cents per square foot
For a duplex	50 cents per square foot
For a condominium	75 cents per square foot
For an apartment over 800 square feet	75 cents per square foot
For a restaurant or bar	\$1 per square foot
For an office, shop or other commercial building	75 cents per square foot
For an hotel	\$1 per square foot
For a gas station	\$2 per square foot
For a residential swimming pool	\$200 flat fee
For a commercial swimming pool	\$600 flat fee
For an illuminated sign	\$10 per square foot
For an industrial building	50 cents per square foot

Publication in consolidated and revised form authorised by the Governor in Council this 7th day of July, 1998.

Carmena H. Parsons
Clerk of Executive Council

Note (not forming part of the regulations): Where any application for planning permission has been lodged with the Authority or Board before the 8th December, 1997 such application shall, in all respects, be dealt with as if the Development and Planning (Amendment) (No. 3) Regulations, 1997 had not been made.
