PUBLIC HEALTH LAW (6 of 1981)

**PUBLIC HEALTH (GARBAGE AND REFUSE DISPOSAL)
REGULATIONS**

(1995 Revision)

1. These Regulations may be cited as the Public Health (Garbage and Refuse Disposal) Regulations (1995 Revision). Citation

2. In these Regulations- Definitions
 - “construction waste material” includes waste building material from the construction, alteration and remodelling of a building or structure of any kind, such as lumber, concrete, steel, roofing, etc.;
 - “Department” means the Environmental Health Department;
 - “garbage” includes waste food, vegetables, fruits, meats and other putrescible matter;
 - “Law” means the Public Health Law, 1981; Law 6 of 1981
 - “refuse” includes waste paper, bottles, cans, boxes, yard clippings and trash;
 - “Schedule” means Schedule to these Regulations;
 - “section” means a section of the Law; and
 - “service area” means an area designated by the Department, subject to the approval of the Member, to be provided with a garbage and refuse collection service.

3. All occupiers of premises in service areas shall- Duties of occupiers of premises
 - (a) provide, for the collection of garbage, a water tight metal or plastic container or containers with tight fitting covers;
 - (b) ensure that such containers are of a type and description approved by the Department:
 - Provided that, for commercial establishments and residences having small volumes of garbage and refuse, plastic bags with openings securely tied, with wet garbage wrapped in several thickness of paper, may be used in lieu of containers.

- (c) place the containers or bags for collection in front or at the side of premises on streets abutting the premises or in such other place as may be approved by the Department;
 - (d) remove containers from streets after collection;
 - (e) so place containers as not to obstruct traffic; and
 - (f) refrain from dumping any garbage or refuse on any property belonging to another or on or within the vicinity of any public highway, beach, waterfront or public place.
- Disposal of garbage
4. (1) The use of the garbage collection service in service areas is mandatory save for large commercial establishments specifically exempted by the Department.
- (2) Large commercial establishments may deliver garbage and refuse in private vehicles to landfill disposal sites designated by the Department.
- (3) All garbage and refuse from service areas shall be deposited at the landfill disposal sites designated by the Department.
- (4) Save with the permission in writing of the Department the burning of garbage at private premises in a service area is prohibited.
- (5) No garbage or refuse shall be permitted to accumulate in or on any premises.
- (6) All commercial concerns shall provide for the proper storage of all garbage and refuse to prevent the harbourage of vermin and to prevent scattering by animals or by the wind.
- (7) Approval shall be obtained from the Department prior to construction of any special type garbage or refuse storage bin or facility.
- Collection service
5. A collection service will be provided in residential parts of service areas at least twice per week on days which will be notified, from time to time, in the Gazette, and containers shall be placed as required by regulation 3(c) before 6:00 a.m. on each day of collection.
- Designation of garbage vehicles
6. All vehicles carrying garbage and refuse shall be so designed and loaded as to prevent spillage during transit.
- Removal of construction waste
7. It shall be the responsibility of contractors to remove and dispose of all construction waste material resulting from new construction or other works on or at any premises, and such waste construction material will be accepted at the landfill.

8. Dead animals not slaughtered for consumption shall be disposed of by burial at a depth of not less than two feet of earth or as directed by a public health inspector. Dead animals

9. Large containers specially approved by the Department shall be placed and serviced by the Department, and access to these containers shall be kept clear at all times; boxes and cartons shall be broken down effectively to utilise container capacity and wet garbage shall be placed in plastic bags being put into the container. Large containers

10. (1) The annual fees specified in the Schedule shall apply in respect of garbage and refuse disposal collection in service areas. Fees

(2) Every fee in the Schedule in respect of a collection of garbage or refuse shall be due and payable fourteen days after the first day of January in each year by the occupier of any premises where that collection is carried out.

(3) Any fee in the Schedule which is due and payable under this regulation-

- (a) shall, in respect of premises in Grand Cayman, be paid to the Financial Secretary, and shall, in respect of premises in Cayman Brac or Little Cayman, be paid to the District Commissioner; and
- (b) shall be recoverable by the Department as a civil debt.

(4) Any fee or part of a fee specified in the Schedule which is due and payable shall carry interest at the prescribed rate in respect of the period beginning on the date when the fee or part of the fee becomes due and payable and ending on the date on which the fee or part of the fee is paid.

(5) In subregulation (4)-

“the prescribed rate” means such rate as may be determined by the Governor in Council for the purposes of this regulation; and different rates may be prescribed for different fees or classes of fee.

(6) The Financial Secretary, where he is informed the Department is satisfied that the occupier of any premises in a service area is complying, to the Department’s satisfaction, with the conditions of any recycling scheme carried out by the Department in that area, may abate the fee in respect of any garbage and refuse disposal collection that would, apart from this subregulation, be due and payable by the occupier of premises at which that collection is carried out.

(7) The amounts by which any fee may be abated under subregulation (6) shall be determined by the Financial Secretary having regard to-

- (a) the costs of operating the recycling scheme and any revenue or other financial benefit derived by the Department from the recycling scheme; and
- (b) the extent to which the occupier who is liable to pay the fee to be abated has complied with the conditions of the recycling scheme.
